

Choose You. Helping you build healthy habits.

Choose You is a free service for people in Milton Keynes who want to make a change to their health - whether that's quitting smoking, losing weight, or simply feeling healthier. We offer a whole range of expert support, with one-to-one guidance, group sessions, support programmes and self-help tools, all designed to fit around your life.

We focus on you as a person, not just the habits you want to change. That's because we know real life plays a big role in reaching your goals. Maybe you want to take the dog for a walk without stopping for breath, keep up with your kids or your grandchildren at the park, or hear your doctor say your blood pressure is normal.

Maybe for you, it's about feeling confident at a family occasion or making it through the day without craving a cigarette. Whatever it is you want to achieve, we'll help you build the habits that get you there, by offering you the right support - and taking it at your pace.

You can easily sign yourself up online, www.chooseyou.co.uk

Weight Management

The NHS has a digital Weight Management Programme to support adults living with obesity who also have a **diagnosis of diabetes, hypertension or both**, to manage their weight and improve their health.

It is a 12-week online behavioural and life-style programme that people can access via a smartphone or computer with internet access.

We did:

You asked for a clinician to determine what is urgent for an appointment.

We introduced a clinical triage team to offer on the day callbacks to provide an assessment, accessed via the practice website.

Your Patient Participation

Your patient participation group (PPG) is made up of a group of volunteer patients, the practice manager and one or more of the GPs from the practice. The group covers both the Bedford Street Surgery and Furzton Medical Centre. No medical or patient information is shared or discussed at the meetings.

The changes to the NHS and the focus on patient involvement means that the PPG now has an increasingly proactive role to ensure that patient views are captured and understood by the Practice. The patient participation group meets on a regular basis to discuss the services on offer, and how improvements can be made for the benefit of patients and the practice.

In order to gather a truly representative sample of patients together, we welcome patients from all manner of diverse backgrounds including young people, students, workers, retired people, people with long term conditions, and people from non-British ethnic groups.

If you are interested in joining the PPG visit the website www.bedfordstreetsurgery.co.uk and click on About the Surgery and scroll down to Patient Participation Group or come in to the practice and speak with a member of our reception team.
